Message from Founder

Alkanooz was born in 2010 as a result of passion to design house wares, home décor and a fine variety of miscellaneous items in crafted metal and wood. The inspiration was drawn to invoke the skills of variety of artisans around the globe.

Alkanooz was launched with faith and confidence in Artisans and their craftsmanship. The word "Alkanooz" means The Treasures – the treasures that belong to the House of Alkanooz are unique in their creativity, ingenuity, and design of global artists.

Further to fulfilling customers' aspirations, for a majestic and modern world, we scouted the globe to blend new with traditional ideas. Working on this concept, many artisans were engaged to produce discrete items which are not only practical but at the same time are rare display of art, design, and quality.

Keeping in mind today's frantic lifestyle we have developed a complete on-line store to provide a unique shopping experience in the comfort of your home. All our customers, around the world have displayed their immense confidence while making a purchase thinking "it's a place to discover" the rarity.

Another objective of Alkanooz is to provide many artisans a platform where they as purveyor of quality products can be recognized. They have the ability to transcend ideas into meaningful creations. All of these artists work diligently and take pride in their work – it is their inherited skill from their fore-fathers.

Our Commitment

At Alkanooz, we are committed to produce exclusive handicrafts where modernity meets traditional. Using the grandeur embellishment of Pakistani tradition along with the simplicity of contemporary craftsmanship, we are proud to serve our clients with unparalleled artistry. As Alkanooz continues to take on the global market, we challenge ourselves to create pieces that “speak” to our clientele.

Our purpose is not only to serve our clientele, but to also encourage artisans from across Pakistan to manifest their work. Many artisans were stunted in the handicrafts industry due to a lack of resources and capital however, Alkanooz is devotedly working to revive a declining industry. Dedicated to provide employment for underprivileged craftsmen, Alkanooz provides a source of income for a number of underprivileged families while catering to our clientele.

“ Coming together is a beginning;
keeping together is progress;
working together is success. ”

Henry Ford

Our Vision

Creativity by hand is an asset and not everyone is gifted with it. In Pakistan there is immense talent among people who are not only creative but are also responsible for preserving the expertise of their forefathers. Recognizing the obstacles they are faced with Alkanooz 's vision is to help them in promoting their skills in different markets globally. There is a growing need for handicrafts worldwide but the lack of resources, training and marketing is responsible for it's demise.

Our vision has broader meaning than ordinary, we are focused to explore markets internationally and bring home world of ideas about new trends, demand, and skills. We need to tap our artisans to meet the challenges of changing world, consumers and economy. The talent of our crafters in combination with guidance provided, markets explored and financial support I can envision a brighter future.
